Automatic TouchScreen Disinfection

"CLEAN SCREEN"

An automatically retractable (touch) monitor offers fascinating possibilities. One of them is automatic disinfection as soon as the screen retracts at the push of a button.

The need for safety and health integrity are a matter of course today. They determine a professional and well thought-out design of interactive presentation technology.

This is especially true for touch surfaces and for rooms and environments with changing users.

Effective against Pathogens

ELEMENT ONE's built-in V-FREE technology is optionally available for every vertically retractable touchscreen and monitor in the FOLD! or CONVERS series. The idea and mode of operation is as unique as it is effective.

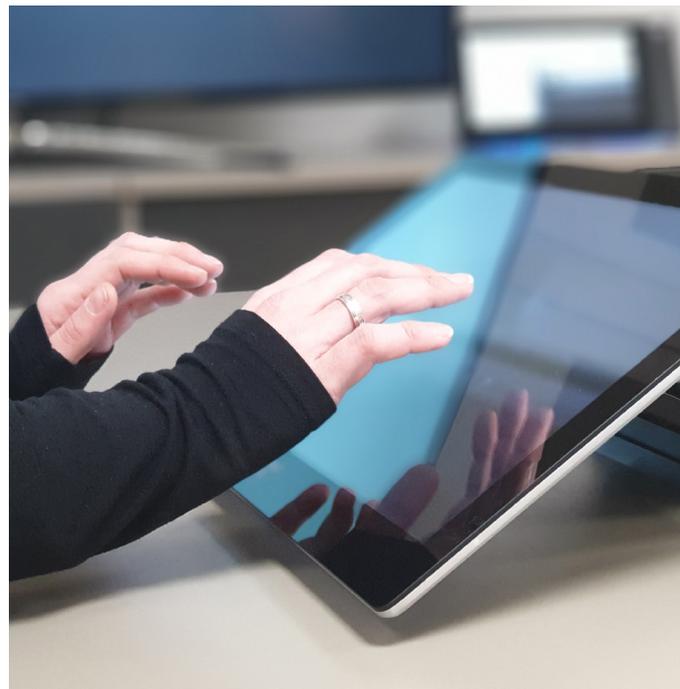

As soon as the command to retract is given, while the screen disappears as quiet as a whisper, an almost invisible cleaning process begins. The process is repeated when the screen is extended. The only indication that disinfection is underway is a green glowing light bar that shows when the process begins and when it is complete. The monitor is now ready for the next, hygienic use.

- FOLD! 156 FullHD | ... 4K
- FOLD! 173 FullHD | ... 4K

Further models as well as possibilities of retrofitting gladly on request.

"WE GIVE YOU GREEN LIGHT"

The surface treatment is carried out by means of **UV-C light** and is thus, incidentally, completely liquid-free. The effectiveness against pathogens has been tested and confirmed in extensive trials. With **V-FREE** equipped ELEMENT ONE (touch) monitors give every user a good and safe feeling.

With **V-FREE**, time-consuming, regular manual treatment of the monitor against viruses, bacteria and other germs is in principle no longer necessary.

Contact

We'd be delighted to offer our expertise in the planning and selection of the right solution for your needs. If required, we can send further technical drawings, detailed photographs, material samples and, of course, demo devices – perfect to handle and try out.

Simply call us on +49 (0)7222 96654-20
Or send us an e-mail at: info@element-one.de
